

Technical training capacity building courses - CoolHeating

It is our honor to invite you to the second technical training course organized as part the CoolHeating project. The training course will take place on **4.12.2017** (Monday) at **Hotel Tourist, Best Western**. It should facilitate transfer of knowledge and experiences in the area of design and planning of small, modular and renewable district heating and cooling grids. In order to meet this goal, the course will address three main areas: planning of heating source system, design of district heating network and financing renewable energy projects.

Agenda

Time	Topic	Speaker
9:45	Registration	
10:00	Heat Pumps and Solar Thermal Collectors	Jakob Worm, PlanEnergi
10:30	Usage of Technical / Economic Calculation Tool for District Heating Planning	Jakob Worm, PlanEnergi
11:00	Efficient District Heating Network and Sustainable Energy Production	Christian Mrazek, Rehau Headquarter Guntramsdorf
11:30	Coffee break	
11:45	Combined Solar and Heat Pump Heating/Cooling Systems – Case Study of Soravia Resort	Ljubomir Ilkov, ICS Group
12:15	National Mechanisms and Models of Financing Renewable Energy and Energy Efficiency	Ilija Sazdovski GIZ
12:45	Discussion	

Natasa Markovska
